The CCHS Football Camp will focus on the fundamentals of football. Players will be instructed in all facets of the game on offense, defense and special teams. Each player will get the opportunity to choose the positions they would like to improve their skills. They will be coached by the Cathedral Varsity Football Staff. The staff has coached the Dons to the playoffs the last ten years including four CIF Championships, one of only a few teams to win four CIF Championships in this time frame. Your son or daughter will have a great time learning and improving on the game of football. We have sent many players to the next level but more importantly we have coached many young student athletes to learn to excel in the sport of football and school.

- Coached by Coach Doyle, Coach Montali and the rest of the CCHS Football Staff. The Dons Football Program won the 2007 CIF Division III Championship as well as the Eastern League title.
